

If you don't have an email and password in IRI's database, you can create an account. Click on the Create an Account link or Create Account button on the login page.

A screenshot of the login page. At the top, it says "Login". Below that are two input fields: "Email:" with the placeholder "someone@example.com" and "Password:" with the placeholder "Password". There is a checkbox for "Remember me" and a note "Uncheck if on a public computer". A blue "Login" button is present. Below the button are two links: "Forgot your password?" and "Create an account!". A red arrow points to the "Create an account!" link. Below the login form, the text "Not in our system?" is displayed in blue, followed by "If you are new to our site, please create an account." A red arrow points to a blue "Create Account" button at the bottom.

Check for your email by entering it into the form and clicking the Search button.

A screenshot of a form titled "Have an account already?". Below the title, it says "Please enter your email address below to see if your record exists in our system. If a match is found and you have forgotten your password, you may request a new one." There is an input field for "Email:" containing "jsmith@gafg.com" and a blue "Search" button below it.

The database will check for any company with the same domain as your email (In this example @gafg.com) and show those companies. Choose the appropriate company by clicking on the “Register with this organization” button.
